EDUCATION HUB

Internationalisation

Hong Kong boasts a highly internationalised and diverse post-secondary education sector. A number of measures have been put in place by the Hong Kong Special Administrative Region Government to enhance Hong Kong's status as an international education hub. Apart from striving to host international education conferences and exhibitions, the HKSAR Government also encourages local post-secondary institutions to enhance collaboration and exchanges with their counterparts around the world in promoting the "Study in Hong Kong" brand on a global scale, as well as attracting more overseas students to study in Hong Kong through the provision of scholarships.

To attract more outstanding students along the Belt and Road to pursue their studies or career in Hong Kong, Belt and Road Scholarships have been expanded to cover all regions along the Belt and Road, as well as research postgraduate students, since the 2019/20 academic year. Starting from the 2024/25 academic year, the scholarship quota will increase by 50 per cent.
