Co-ordinated support from banking industry

The Hong Kong Monetary Authority (HKMA) convened a special teleconference of the Banking Sector SME Lending Coordination Mechanism (the Coordination Mechanism) on February 11, 2020 to discuss ways for the industry to extend greater support to SME customers in light of the latest developments. Support strategies of participating banks include:

- Continue to proactively offer to delay repayments or extend loan tenors, and to reduce fees to reduce the cash flow pressures facing SMEs. Some banks also provide unsecured loan products for SMEs to help improve their cash flow and have made special arrangements to expedite loan approvals.
- For the import and export sector, banks have extended the repayment period of trade financing facilities to align with the prolonged trade cycle and allowed customers to convert trade financing lines into temporary overdraft facilities.
- For the transportation sector, banks have offered repayment holidays or principal moratoriums to some affected customers, including taxi and minibus operators.

On April 3, HKMA and the Hong Kong Mortgage Corporation Insurance Ltd. (HKMCI) put forward another round of initiatives to further support SMEs in addressing cash-flow pressure. They include:

- Introducing a series of measures aimed at increasing the banking sector's liquidity and encouraging banks to deploy their liquidity buffers more flexibly to support lending and other business activities.
- Reducing the current level of regulatory reserves by half to release a total of $200 billion of lending capacity, providing banks with more room on their balance sheets to cater for future financing needs.
- Asking banks to consider arrangements to automatically offer extensions of loan tenor or principal repayment holidays to qualified SMEs without requiring them to make an application.
- Banks say they will allow SME customers in the import-export and manufacturing sectors facing cash-flow pressure due to delays in shipments to further extend the repayment period of trade financing facilities. They will also consider allowing more customers to apply to convert trade financing lines into temporary overdraft facilities so that customers can manage their cash flow more flexibly.

HKMA and the Coordination Mechanism on April 17 announced the launch of the Pre-approved Principal Payment Holiday Scheme for eligible corporate customers. The scheme is estimated to cover more than 80 per cent of all corporate borrowers in Hong Kong. Eligible customers do not need to apply. They only need to contact the bank within 14 days of the bank's notice about their eligibility to confirm the detailed arrangements of the principal payment holiday.
